EXPERIENCE

Ace Project Space | Aug 2024 – Present
Red River Polytechnic College, Winnipeg, Canada

- Partner with the project manager to document meeting minutes, draft key project documentation, and ensure seamless team coordination.
- Coordinate with stakeholders to define project requirements, including use cases and wireframes, ensuring alignment with business objectives and successful project delivery.
- Lead a development team, driving Agile practices by facilitating stand-up and sprint meetings, ensuring smooth project progress and fostering effective team collaboration.

PROJECTS

Volunteer Web Developer | November 2024
[Clothing Bakery], Winnipeg, Canada

- Update the front-end of its current website to result in a more functional and organized website.
- Assisted with SEO strategies to enhance site visibility and ranking. Contributed to optimizing the website's Shopify store for a seamless shopping experience.

EDUCATION

Full Stack Web Development Diploma | August 2023 – December 2024
Red River College Polytechnic, Winnipeg, Canada

- Completed coursework in Communication Strategies, IT Foundations, Database Management, Web Development, Programming, Agile Project Management, and Business Analysis.
- Developed skills in full-stack web development, focusing on front-end and back-end technologies. Gained hands-on experience with database management, programming languages, and Agile project methodologies.

Business Administration | August 2017 – December 2017
Red River College Polytechnic, Winnipeg, Canada

- Developed strong business communication skills, enhancing both written and verbal communication proficiency.
- Became proficient in Microsoft Office Suite (Word, Excel, PowerPoint), enabling effective document creation and data analysis.

Photography and Graphic Design | September 2013 – June 2017
Kildonan East Collegiate, Winnipeg, Canada

- Acquired hands-on experience with digital and analog photography techniques, including exposure settings, lighting, composition, and editing.
- Developed a strong foundation in design principles, including typography, color theory, and layout.
- Gained expertise in Adobe Creative Suite (Illustrator, Photoshop, InDesign, Lightroom and Premiere) for creating professional-grade visual content, including graphic designs, photo retouching, layout design, and video editing.
